HackerRank: Anup

## SKILLS

### TECHNICAL SKILLS

Languages:

• C • C++ • JAVASCRIPT • HTML • CSS  
• PYTHON

Frontend Tools:

• REACT • REACT-NATIVE • GSAP

Backend Tools:

• EXPRESS • NODE.JS

Database Tools:

• MYSQL, SQLITE

## EXPERIENCE

### BYTE WAVE | FRONTEND DEVELOPER

Apr 2024 - present | Remote

- **Engineered** production-level web applications using React, SQL, Express, React Native, SQLite, and Node.js
- **Crafted** animation with **GSAP** and various frontend libraries to meet client demands by 25%.
- **Delivered** high-quality projects, including **E-commerce** websites, dynamic web applications, and static web applications, increasing client retention by 30%
- **Consistently surpassed** client expectations with innovative solutions, resulting in a 95% satisfaction rate.

### SKILLBHOOMI PVT LTD. | Trainee SOFTWARE ENGINEER

Sep 2023 - Feb 2024 | Dhanbad, Jharkhand

- **Constructed** React applications and utilized various React libraries
- **Orchestrated** APIs to ensure smooth communication between the backend and frontend, enhancing overall functionality.
- **Tested** projects by intercepting requests and responses, ensuring the reliability and efficiency.
- **Optimized** performance techniques, resulting in a **10%** improvement in application speed.
- **Collaborated** with senior developers to debug and enhance existing applications.

## PROJECTS

### Mobile Inventory Management App | REACT-NATIVE SQLITE

- **Developed** a mobile app for seamless inventory management and bill generation, boosting inventory tracking efficiency by **20%**.
- **Integrated** SQLite for robust local data storage, ensuring quick and reliable access to inventory information, reducing data retrieval time by 25%.
- **Designed** and implemented a unique **bill ID generation** feature for each transaction, streamlining order management processes.
- **Enhanced** user experience by enabling efficient item search and list creation post bill ID generation.
- **Added** functionality to **print pages** of selected products, optimizing the checkout process.

### Donation App | REACT, NEXT.JS, MYSQL | [LINK TO APP](#)

- **Created** an engaging landing page and intuitive donation form with Razorpay integration, resulting in a **25%** increase in donation completion rates.
- **Utilized** Next.js to power a responsive backend with MySQL, reducing page load time by **30%** and minimizing downtime incidents by 25%, ensuring a secure and seamless giving experience.
- **Implemented** a dynamic list feature showcasing contributors transparently, resulting in a **40%** increase in user engagement and a 15% rise in donation frequency
